Our Vision

Because of our work today, in 30 years the Bay Area will still be one of the world's most beautiful and ecologically diverse metropolitan areas, supporting vibrant and healthy wildlife populations and human communities.

Carbon Pollution Set To End Era Of Stable Climate

Marcott et al. (2013) and Romm (2013)

Workshop Goal

Bring together ranchers, public rangeland managers, and rangeland experts to begin to identify conservation strategies to sustain the numerous ecosystem benefits of rangelands, support the needs of public land managers, and those of the Bay Area ranching economy, which could be at risk in an increasingly uncertain environment.

Workshop Committee

Sheila Barry, University of California Cooperative Extension

Wendell Gilgert, Point Blue Conservation Science

Pelayo Alvarez, California Rangeland Conservation Coalition

Clayton Koopmann, Rancher, Midpen. Open Space District

Lynn Huntsinger, University of California Berkeley

Mark Swisher, Contra Costa Water District
